Johnstown People Raise \$1,500 to Take the Steps to Bring Suit

AGAINST THE SOUTH FORK CLUB.

The State Force of Employees at Work Has Been Increased.

DID NOT KNOW THAT IT WAS LOADED.

All the News from the Communities That Are Tributary to Pittsburgh.

A portion of the citizens of Johnstown have raised \$1,500 to use in investigating the chances of a successful suit for damages against the South Fork Club. The State force has been increased.

SPECIAL TELEGRAM TO THE DISPATCH.

JOHNSTOWN, September 6.—The committee which had in hand the collection of money subscribed to push the suit against the South Fork Fishing Club met to-night, when it was found that over \$1,500 had been collected. As only \$1,000 was required, it seemed to them that the people are in earnest in the matter. It was decided to have the investigations by Messrs. Rose and Linton made as soon as possible, and if there is any encouragement given, to push the suit as rapidly as possible. Considerable money has been given to the committee within the past few days, over \$400 having been handed in to-day.

About 400 men were at work for the State to-day, and the number will be increased as rapidly as possible until a much larger force is employed. After an absence of a week Secretary Kremer returned to town again to-day. He says everything will be in shape to present a full report of the case to the committee on a meeting in Harrisburg on the 13th inst. Mr. Kremer anticipates that the report of the Board of Inquiry, however, will be made in a shape for its immediate adoption, and thinks it will be some time yet before the money will be distributed.

The committee of 15 leading citizens were this afternoon appointed by the Board of Trade to urge the rebuilding of the bridges over the river. The gentlemen appointed on this committee will urge immediate action of the board of directors of the Pennsylvania Western Union Telegraph Company's office has again been moved back to the room where it was when first located upon the river.

A DIAMATIC DAM.

Allentown Citizens Object to the Refilling of the Old Water Works Pond.

ALLENTOWN, September 6.—The heavy rains of several weeks ago washed away a portion of the old water works dam and the question whether it should be rebuilt or whether the public mind at present. Three years ago Allentown was visited by an epidemic of typhoid fever and malaria.

At that time the leading physicians of the city presented a memorial to the City Council setting forth that they were unanimously of the opinion that the water in the pond was exposed to the rays of the sun produced the miasma which prevailed at that time for many consecutive days over the northern and western portions of the city and left a permanent stain in its track, and in which they recommended the tearing away of the dam and allowing the water to return to its original channel and the thorough disinfection and filling of the masonry space, removing all danger of a recurrence of the epidemic.

Prof. Lederman, of Philadelphia, was called in as an expert and pronounced the swamp liable to be a source of malaria and recommended that the dam should be removed. Here matters rested, however, and the health of the community was jeopardized until the late flood. The question was again brought up, and the feeling against rebuilding the dam runs high, as the city has no further use for it and its removal is regarded as essential to the health of the city.

Two \$10,000 Suits Against a Village.

WILKESBARRE, September 6.—Mrs. Margaret T. McKee today caused to be filed in the prothonotary's office here an action of trespass for \$10,000 damages against the borough of Pleasant Valley. Some time ago she fell through a bridge, and sustained injuries which incapacitated her from household duties, her injuries being permanent. Her husband also filed a claim for \$10,000 for loss of her services and expense of attendance.

A BIG MELT OF STEEL.

Oliver Brothers & Phillips Broke the Record Last Week. Oliver Bros. & Phillips have made an extraordinary run of steel in their converting mill at the foot of South Thirtieth street. One day last week they melted 148,800 pounds of scrap steel in one cupola in 24 hours. This is claimed to be the best record ever known. The average run in one cupola is about 82,000 pounds. In the same time 414,000 pounds of iron was melted. The melt reflects great credit on the Superintendent of the mill, George W. Bryan, who is an old Edger Bros. man. The mill is now running triple turn.
